

Zenith 5000

BASIC AMERICAN
MEDICAL PRODUCTS

Zenith 5000

The **Zenith5000** provides a bed that securely locks in position at any height other than its lowest position. For safety, the bed will only roll in its lowest position. Therefore, when the bed is being used to transport a resident, the chances of injury from a fall are greatly reduced. The durability and quality of the new Zenith Series beds will bring you many years of quiet, smooth, efficient operation.

The solution, innovation, and features you want from the name you trust: Zenith from Basic American.

Designed for comfort and efficient operation

Height travel range: 7.95" to 30"
Straight vertical rise protects walls and maintains footprint.

Strong, no-sag grid deck sleep surface with sturdy cross braces.
Safe work load: 500 pounds*

BASIC AMERICAN
MEDICAL PRODUCTS

Synchronized high-low motors keep the bed level for proper therapeutic positioning. When the head position is lower than the heart, lung volume may be compromised, causing airway problems, making it more difficult to breathe. Uneven sleep surfaces may cause a risk of brain swelling and reduced systolic and diastolic pressures.

Sealed ball bearings ensure maintenance-free, continuous, silent operation.

Quick disconnect to control box simplifies maintenance.

Grounded hospital-grade plug is a standard feature.

For resident safety, **rolls in lowest position only**, with 360° mobility. This helps prevent injuries from potential falls while moving residents.

For added safety, **bed locks in place when raised to any height** other than its lowest position.

Bed easily adjusts for use at 76" or 80" length.

- **Adjustable wall saver** positions (76", 80", and for use with a trapeze) provide the smallest footprint at each length, while protecting the wall (included with bed).
- **Adjustable mattress retainer** securely supports mattress position for 76" or 80" length (included with bed).

Maximum underbed clearance for use with overbed tables and lifts.

SilverSolutions™ within the powder-coating provides antimicrobial surface protection

- Kills 99.9% of odor and stain causing bacteria
- Lasts for the expected life of the bed
- Non-allergenic and safe for the environment
- High concentration of silver ions gives high efficacy
- Requires no special handling
- A cost effective solution that is built in to last

Optional Half Length Assist Device and Assist Bars provide a sturdy and secure hand hold to assist residents in and out of bed. Assist devices are removable without tools and meet FDA Entrapment Guidelines.

Warm-to-the-touch Half Length Assist Device
ZA84200

Warm-to-the-touch half-length assist device and pivot assist bars:

- Move out of the way for lateral transfers.
- Pivot away from egress area.
- Provide toe clearance even in lowest position to prevent staff injury.
- Hand pendant mounts facing inward or outward and away from hand grab area.

Pivot Assist Bar ZA85400 (tool-less)
ZA87900 (bolt-on)

Fixed Assist Bar ZA85000 (tool-less)
ZA87800 (bolt-on)

Pendant Hand Control and Holster

Easy operation contoured pendant is shock-resistant, splash-proof and durable. Pendant connects to either side of the bed to adapt to varying room layouts. Holster conveniently secures to bedrails and assist devices for easy access.

Battery Backup Kit

Provides the ability to perform bed functions in the event of power outage.
ZA84400 Battery Backup and Charger

Length Extension Kit

Transform your bed to 84" with this optional 4-inch sleep deck extension.
ZA85350 Standard 35" width
ZA85300 for 39" or 42" widths

Wide Deck Kit

Optional wide kit adjusts the bed sleep deck to 39" or 42" width for greater resident comfort. (Head and foot boards and staff control electronics not included.)

ZA858000 39" wide deck kit
ZA851000 42" wide deck kit

May be attached with bolts or quick release pins.

Trapeze Adapter

Optional trapeze adapter allows for easy attachment of trapeze system to headboard within easy reach for residents for repositioning themselves.

ZA79000 (for use with
ZA78100 Trapeze Bar)
