**FOR IMMEDIATE RELEASE**

**Graham-Field Health Products announces the acquisition of Lumiscope®**

Atlanta, GA — Dec. 31, 2007 — GF Health Products, Inc., announced today that it has completed the asset purchase of Lumiscope®, a manufacturer and distributor of diagnostic devices, as well as respiratory, orthopedic supports, electrotherapy and thermometry products for hospitals, physicians and consumers.

Since the 1970's, Lumiscope has been a dominant player within these markets, with several industry innovations. Lumiscope's former President, Marc Bernstein, will continue to manage the Lumiscope products and customers. Bernstein commented "that Graham-Field's depth and breadth of products complement Lumiscope's offerings to our drug chain, drug wholesaler, medical specialty distributor, e-commerce and mass merchant customers."

"The completion of this acquisition represents a significant step for Graham-Field, in our strategy to accelerate growth within several of our core product categories" commented Beatrice Scherer, Graham-Field's President and CEO. "This transaction has created for us opportunities to increase top-line growth as well as achieving cost synergies in general and administrative expenses."

Lumiscope, based in Piscataway, NJ, will transition its customer service, quality assurance, engineering, technical support and repair departments; warehousing and manufacturing to Graham-Field's existing East Rutherford, NJ complex.

Graham-Field's Lumiscope branch will be the responsibility of Ken Spett, GF's Senior Vice President, Medical-Surgical Division. "We want to welcome the new employees to GF's 300 employee family and we are particularly proud that the Lumiscope orthopedic support factory will complement GF's two existing U.S. domestic manufacturing facilities in Rhode Island and Wisconsin" said Mr. Spett.

Graham-Field Health Products, headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care, primary care, and acute care markets. Its products include medical/surgical products, diagnostics, patient room products, homecare and long-term care beds, respiratory products, manual and power wheelchairs, and specialty seating products.
