For Immediate Release:

Graham-Field Introduces Grafc® Microwaveable Moist Heat Therapy Packs

August 14, 2006 • Atlanta, GA:

Graham-Field Health Products is pleased to introduce the **Grafc® Microwaveable Moist Heat Therapy Packs**, shown here.

2080 (9" x 12")

2081 (10" round)

2082 (neck wrap)

These reusable moist heat pads represent a major development in moist heat technology; the filler will not rupture, leak, or dry out. The pads absorb moisture from the surrounding air, then when microwaved, release retained moisture to provide therapeutic moist heat. The outer cover, a soft fabric designed to allow the maximum release of moisture, is shaped to fit the body's contours. These safe, convenient, microwaveable moist heat therapy packs, reusable many times, join the outstanding line of Grafc® heat therapy and personal care products.

GF Health Products, Inc., headquartered in Atlanta, GA, is a major manufacturer and distributor of healthcare products for the homecare, long-term care, and acute care markets. Its products include personal care products, pressure management products, respiratory products, homecare and long-term care beds, patient room products, manual and power wheelchairs, patient aids, diagnostics, and specialty seating products.

Graham-Field has manufacturing facilities located in Fond du Lac, WI; Central Falls, RI; Indonesia; Taiwan; and China. Graham-Field's name brand products include Grafc, Labtron, Lumex, John Bunn, Basic American Medical Products, and Everest & Jennings.

GF, Graham-Field, and Grafc are registered trademarks of GF Health Products, Inc.
