**Basic American Zenith® Series Specifications**

- **Tool-less assembly** minimizes set-up time.
- **Proudly Made in the U.S.A.**
- **NEW Improved Warranty**
  - 15 years on frame
  - 5 years on motors and control box
  - 3 years on other electronics

- The Zenith9000 bed and accessories are in full compliance with the FDA guidelines for reducing the risk of bed entrapment, "Hospital Bed System Dimensional and Assessment Guidance to Reduce Entrapment". Details can be found at: www.fda.gov.

- For more information on the Zenith Series, please visit us online at www.grahamfield.com or call Basic American today.

*including resident, support surface, head/foot boards, and accessories.*

---

**Wide Deck Kit**
Optional wide kit adjusts the bed sleep deck to 39” or 42” width for greater resident comfort. (Head and foot boards and staff control electronics not included.)

**Battery Backup Kit**
Provides the ability to perform bed functions in the event of power outage.

**Length Extension Kit**
Transforms your bed to 84” with this optional 4-inch sleep deck extension.

**Trapeze Adapter**
Optional trapeze adapter allows for easy attachment of trapeze system to headboard within easy reach for residents for repositioning themselves.

**Pendent Hand Control and Holster**
Easy operation contoured pendant is shock-resistant, splash-proof and durable. Pendant connects to either side of the bed to adapt to varying room layouts. Holster conveniently secures to bedrails and assist device for easy access.

**Ultra-Soft Mattress**
Offers unparalleled comfort and support. Durable and resistant to moisture and bacteria. Available in a variety of thicknesses and densities.

**Zenith9000 Bed**
- **Height Travel Range**: 7” to 30”
- **Safe Work Load**: 600 lbs.
- **Mattress Deck Length**: 80”
- **Mattress Deck Width**: 36”
- **Overall Bed Length (76”/80”)**: 85.75” with wall saver
- **Overall Bed Width**: 48.75” with half length assist devices
- **Maximum back angle**: 70°
- **Maximum knee angle**: 30°
- **UN-Restricted UL Listing**
- Built to conform to UL 60601-1, IEC601-2-38, and CAN/CSA C22.2 No. 601.1. This Zenith Series offers the following, ensuring the utmost resident and staff safety:
  - No pinch points within 200mm of bed perimeter
  - Bed can be used as a transport device because it passes threshold clearance at ALL heights by 20mm
  - Splash-proof electronics
  - Load capacity and tip-stability tested and approved

**Optional Half Length Assist Device and Assist Bars** provide a sturdy and secure hand hold to assist residents in and out of bed. Assist devices are removable without tools and meet FDA Entrapment Guidelines.

- **Warm-to-the-touch half-length assist device** and pivot assist bars:
  - Move out of the way for lateral transfers.
  - Pivot away from egress areas.
  - Hand pendant mounts facing inward or outward and away from hand grab area.
  - Provide toe clearance even in lowest position to prevent staff injury.

**Height and Distance Standards**
- ** prefixed with a**

The new Zenith Series resident beds bring you the superior quality and features you've come to expect from Basic American. The Zenith Series provides comfort, safety, and quiet, efficient operation. With input from users, we've added even more functionality to ensure that your resident and caregiver needs are met.

The solutions, innovation, and features you need from the name you trust. Zenith... all at an affordable price.

**Zenith 9000**

- **Comfort, safety, and quiet, efficient operation.**
- **With input from users, we've added even more functionality to ensure that your resident and caregiver needs are met.**
- The solutions, innovation, and features you need from the name you trust: Zenith... all at an affordable price.

---

**Intuitive two-pedal locking system**
- Is centrally positioned and easily visible from a distance to ensure that the bed is locked.
- Pedal locks are readily accessible at ALL bed heights and widths, even in the lowest position.
- Bed rolls at any height reducing caregiver back strain.

**Synchronized high-low motors**
- Keep the bed level for proper therapeutic positioning.
- When the head position is lower than the heart, lung volume may be compromised, causing airway problems, making it more difficult to breathe. Unlevel sleep surfaces may cause a risk of brain swelling and reduced systolic and diastolic pressures.

**Sealed ball bearings**
- Ensure maintenance-free, continuous, silent operation.

**Timesaver Technology™**
- Fast, even-speed motors save time.

**Bed provides 360° mobility at ANY height.**
- Directional mechanism on front caster is accessible at all heights for ease in rolling the bed.

**Adjustable wall saver positions (76'', 80'', and for use with a trapeze) provide the smallest footprint at each length, while protecting the wall (included with bed).**

**Adjustable mattress retainer securely supports mattress position for 76'' or 80'' length (included with bed).**

**Edema foot ratchet**
- To elevate the foot end of the bed (included with bed).

**Embedded staff control**
- Angled for better visibility.
- Two-stage lockouts – lockout of pendant use and lockout of embedded staff control.

**Grounded hospital-grade plug**
- Is a standard feature.

**Quick disconnect to control box simplifies maintenance.**

**Maximum underbed clearance**
- For use with overbed tables and lifts.

**GF Health Products, Inc. makes no independent representations or empirical statements about SilverSolutions.**

The new Zenith Series resident beds bring you the superior quality and features you've come to expect from Basic American. The ZenithSeries provides comfort, safety, and quiet, efficient operation. With input from users, we've added even more functionality to ensure that your resident and caregiver needs are met.

The solutions, innovation, and features you need from the name you trust. Zenith... at an affordable price.

Designed for comfort and efficient operation

Height travel range: 7" to 30"

Strong, no-sag grid deck sleep surface with sturdy steel frame.

Safe work load: 600 pounds*

SilverSolutions within the powder-coating provides antimicrobial surface protection.

SilverSolutions inhibits the growth of organisms that can detract from the appearance and coating functionality:
- Inhibits the growth of bacterial odors
- Resists stains caused by mold
- Resists stains caused by mildew

SilverSolutions preserves the cured coating during the service life of the bed.

SilverSolutions is a registered trademark of TCI Powder Coatings, E098/G1081 for DIN Registration 81/594323.

Synchronized high-flow motors keep the bed level for proper therapeutic positioning. When the head position is lower than the heart, lung volume may be compressed, causing airway problems, making it more difficult to breathe. Unlevel sleep surfaces may cause a risk of brain swelling and reduced systolic and diastolic pressures.

Sealed ball bearings ensure maintenance-free, continuous, silent operation.

Timesaver Technology™—fast, two-speed motors save time.

Sealed ball bearings ensure maintenance-free, continuous, silent operation.

Innovative two-pedal locking system is centrally positioned and easily visible from a distance to ensure that the bed is locked. Pedal locks are readily accessible at ALL bed heights and widths, even in the lowest position. Bed rolls at any height reducing caregiver back strain.

Synchronized high-low motors keep the bed level for proper therapeutic positioning. When the head position is lower than the heart, lung volume may be compressed, causing airway problems, making it more difficult to breathe. Unlevel sleep surfaces may cause a risk of brain swelling and reduced systolic and diastolic pressures.
