Resident Room Collections
C3 is a custom modular solution for addressing furniture needs in both the general healthcare and the long term care environments. The approach provides functionality, allows unique solutions to address specific needs, has the flexibility to change as circumstances require; offering integrated wall units in addition to individual freestanding units.

Building a Wall System

4 Drawer Dresser Base Unit

C3’s base units are freestanding furniture units with the capability to become part of a wall system. All required components are built into each unit.

4 Drawer Dresser with Mid Back

Begin customizing by selecting one of the back options complete with utility chase and ledge, taking advantage of space under windows.

4 Drawer Dresser with Full Back

Further design options utilizing a full back. Use as a stand alone unit or build similar units to assemble as a modular wall system.

4 Drawer Dresser with Full Back and Canopy

Finish customizing with canopy and lighting.
C3 Privacy Room Dividers

Dividers provide stylish and functional separation between residents in semi-private rooms in lieu of cubicle curtains. The dividers present a more residential atmosphere. Units can be configured in many design styles and finishes and with custom sizes.

Each resident has personal storage in their own wardrobe and dresser drawers.

C3 Room Dividers are seismically engineered by Equipment Anchorage & Seismic Engineering Company to meet CA standards when properly installed.
3DL Thermoformed Collections
When form and functionality are equally important, 3DL Thermoformed Casegoods combine pleasing aesthetics with durability. These high performance surfaces provide greater resistance to moisture and bacterial penetration and are more resistant to denting, cracking, scuffs and chipping.

Charleston

Magnolia
Berkeley

Peachtree
**Shannon**

Fluted accent moldings. Round overedge with hardwood crown molding.
Rounded corners

Surface: Laminate
Top Edge: Wood, round overedge with hard wood crown molding

- **Drawer Style:** Inset (Wardrobe has overlay drawers)
- **Kickplate:** Available with inset solid kickplate, flush solid kickplate, no front kickplate, or crescent cut-out kickplate
- **Wardrobe:** Showtop
Drawer fronts are separate from the drawer box, simplifying replacement, if necessary.

Drawer construction includes dowels and staples on sides with an additional bead of glue along perimeter of drawer bottom.

Dressers and bedside cabinets have a stile between each drawer for structural support.

Self-closing drawers have metal drawer slides that are tested to 100 lb capacity per drawer and have drawer stops for safety. Drawers are easily removable by lifting up over the glides.

Ventilated backs of bedsides and dressers promote airflow.

All units have smooth floor glides for ease of movement.

All bedsides, dressers, and wardrobes have a full bottom board for structural support.

European-style hinges provide superior strength and adjustability. Doors can be removed without removing hinges from either the door or cabinet. Hidden hinges offer 110 degree swing and are self-closing.

Wardrobe clothes bar height is adjustable.

All bedsides, dressers, and wardrobes have a full bottom board for structural support.

All units have smooth floor glides for ease of movement.

Optional locks are available for all units. Locks are generally placed on the top bedside drawer or on wardrobe doors. Two keys are provided per lock. Master keys are available with initial order.
