Total Design is your solution! Our team is backed by knowledgeable territory managers, accredited designers, & dedicated project managers who are there every step of the way. We take pride and specialize in assisting customers in the Senior Living space.

At Basic American, we are always up to date on state and local code requirements and best of all – our resident room furnishings are proudly made in the USA. The Total Design experience enables you to maximize your investment when it comes to your facility.

3DL Thermoformed Casegood Collections

When form and functionality are equally important, 3DL Thermoformed Casegoods combine pleasing aesthetics with durability.

We offer 9 collections of 3DL high performance surfaces that provide greater resistance to moisture and bacterial penetration and are more resistant to denting, cracking, scuffs and chipping. Any of these collections are available in any of our standard 3DL finishes.

Whether it's special sizing or mandated requirements, all of our casegoods are customizable to meet state guidelines and regulations. *Pricing may vary due to customization.

Our 3DL resident room collections are backed by a five year warranty.

4 Drawer Dresser with Mid Back

Begin customizing by selecting one of the back options complete with utility chase and ledge, taking advantage of space under windows.

4 Drawer Dresser Base Unit

C3's base units are freestanding furniture units with the capability to become part of a wall system. All required components are built into each unit.

Connecting Casegood Components "C3"

C3 Privacy room dividers provide stylish and functional separation between residents in semi-private rooms in lieu of cubicle curtains. The dividers present a more residential atmosphere with more storage.

Units can be configured in many design styles and finishes and with custom sizes. Each resident has personal storage in their own wardrobe and dresser drawers. C3 Room Dividers are seismically engineered by Equipment Anchorage & Seismic Engineering Company to meet CA standards when properly installed.

4 Drawer Dresser with Full Back

Further design options utilizing a full back. Use as a stand alone unit or build similar units to assemble as a modular wall system.

4 Drawer Dresser with Full Back and Canopy

Finish customizing with canopy and lighting.

- 24" Wardrobe (2 Door/2 Drawer)

CASEGOOD CONSTRUCTION

Drawer fronts are separate from the drawer box, simplifying replacement, if necessary.

Drawer construction includes dowels and staples on sides with an additional bead of glue along perimeter of drawer bottom.

Dressers and bedside cabinets have a stile between each drawer for structural support.

Self-closing drawers have metal drawer slides that are tested to 100 lb capacity per drawer and have drawer stops for safety. Drawers are easily removable by lifting up over the glides.

Ventilated backs of bed sides and dressers promote airflow.

All units have smooth floor glides for ease of movement.

All bed sides, dressers, and wardrobes have a full bottom board for structural support.

European-style hinges provide superior strength and adjustability. Doors can be removed without removing hinges from either the door or cabinet. Hidden hinges offer 110 degree swing and are self-closing.

Wardrobe clothes bar height is adjustable.

All bed sides, dressers, and wardrobes have a full bottom board for structural support.

Optional locks are available for all units. Locks are generally placed on the top bedside drawer or on wardrobe doors. Two keys are provided per lock. Master keys are available with initial order.

All units have smooth floor glides for ease of movement.
