Roll Width - 54"

All patterns in this collection **meet or exceed** ACT[®] Performance Guidelines.

*ACT[®] Registered Certification Marks

PERMABLOK³
ADVANCED VINYL PROTECTION

PERMABLOK³ is a proven vinyl protective coating that's engineered to create a tough, effective barrier against the three biggest problems encountered in healthcare and hospitality environments - germs, abrasion, and stains.

Ag SILVERGUARD[®]
SILVER ION TECHNOLOGY

The elemental protection of silver in SILVERGUARD[®] is an antimicrobial agent. It is safe and efficient in diminishing odors, promoting freshness, and extending the life cycle of a product by attacking bacteria and other destructive microorganisms. SILVERGUARD[®] is released as needed to effectively control bacterial growth, while leaving sufficient quantities of SILVERGUARD[®] to regain antibacterial protection.
